

United States Department of State

Dear Ruth and Cecelia,

Thank you so much for your participation in the Pensacola Women's Alliance lunch at Mr. Jures with our visitors in the Women and Entrepreneurship Group. It was particularly valuable experience for them to see net working in action, and to hear Dr. Judy Benso. Many of these visitors were in the U.S. for the first time and your contribution to their impressions will long be remembered. Thank you so much for your part in the success of the U.S. State Department International Visitors Program, working to build a better world "one handshake at a time."

Jena
